## PROFILE

I am a freelance events professional with 9 years of experience in events, having worked on events in the UK, at sea and in the MENA Region. Specialising in Project Management / Production Management / Showcaller / Stage Manager / Artist Liaison / Front of House Management.

I regularly work with all the premium agencies across the MENA region in various roles, this keeps my event knowledge up to speed. Coming from a presenting and theatre background gives me a good understanding of all aspects of live events; in particular stage and brand activations.

I have sharp organisational skills and a keen eye for detail that separates me from the crowd, along with a great work ethic and team player. I have the ability to lead and motivate teams to work to tight deadlines and in stressful environments, always ensuring delivery.

## EXPERIENCE

## EDUCATION

- Diploma in Musical Theatre - London School of Musical Theatre
- Law AS Level - South Downs College
- 12 A\*-C GCSEs - Miltoncross School

# Expo 1 Year To Go

Burj Park, Dubai, United Arab Emirates

Production Manager

I was in-charge of delivering the full production of this event working with Expo 2020 Moment Makers and Imagination's creative teams, then booking and acting as a conduit to all suppliers to ensure a smooth and successful delivery. I oversaw all communication with Mariah Carey's team pre-event and worked closely with Groupe F to deliver the pyro display whilst also managing all branding and scenic elements.

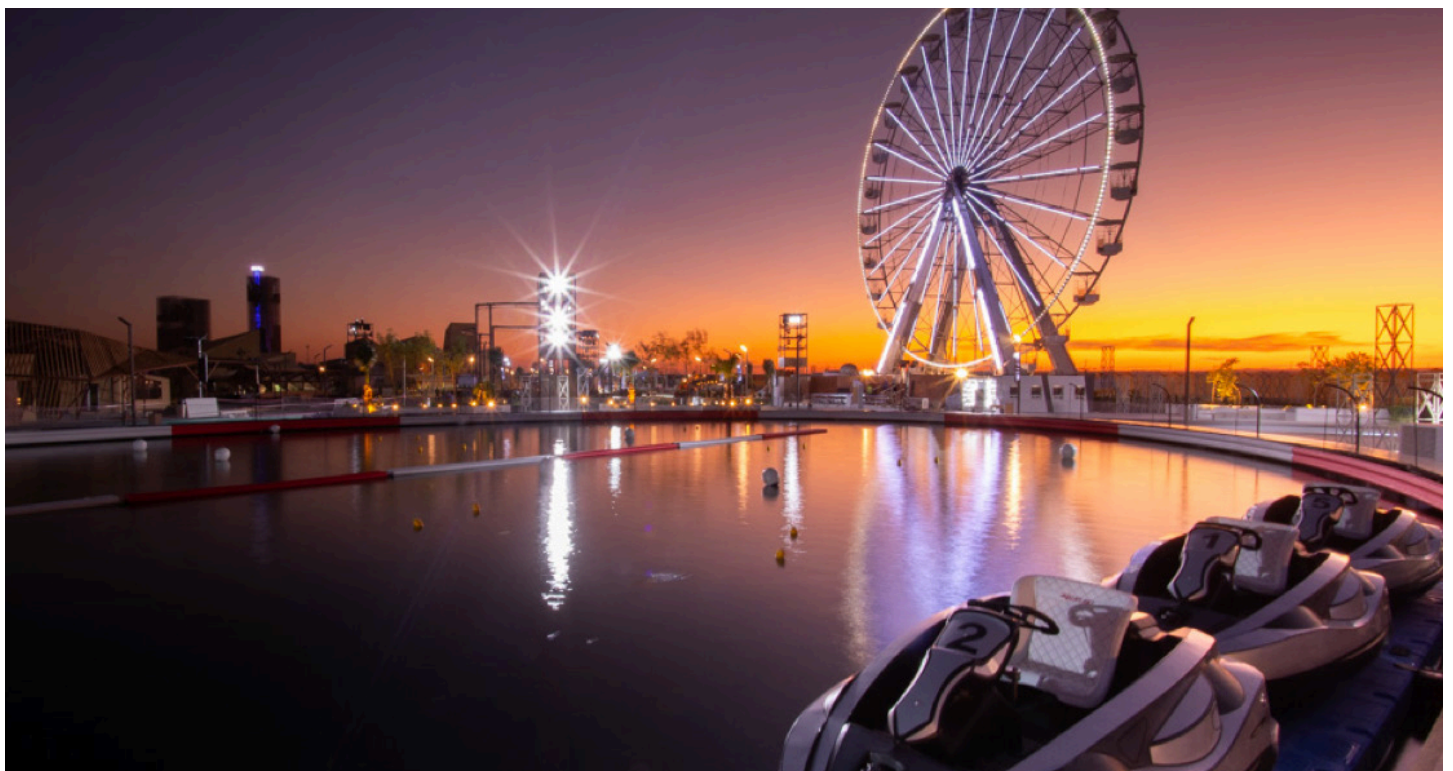

# Diriyah Season

Historical Diriyah, Riyadh, Kingdom of Saudi Arabia

Entertainment Manager

I joined the team one month pre-event to operationally deliver pre-booked entertainment. I successfully liaised between all internal departments to deliver four main stage shows and a large number of music and roaming acts. I oversaw production build elements of the stages and worked with technical teams to deliver audio, lighting and special effects. On a day to day basis I programmed all entertainment, show called the event, filed show reports and attended Head of Department meetings daily, whilst also managing the entertainment team staff.

# Commonwealth Games Social

Birmingham, United Kingdom

Showcaller

For this event I came on board 5 days prior to show day and created the show flow working alongside the PR Company managing the event. I co-ordinated with all artists to make sure their technical riders had been met and that we were prepared in terms of content for audio and video. On the day I show-called the event, managing talent wranglers, audio, video and all artists (whilst desperately trying to manage the rain!).

# Sikka Art Fair 2019

Dubai, United Arab Emirates

Site & Stage Manager

During the build phase I worked closely with the Production Manager to deliver the event as per the client brief and renders. As we went into live phase, I shifted my focus to stage management, whilst still overseeing the full site.

We had a number of live music acts throughout the ten day festival, which saw us have over 60,000 attendees.

# CEO Summit Gala Dinner

Sheikh Mohammed Bin Rashid Al Maktoum's Beach Palace, Dubai, United Arab Emirates

Production Manager

I worked with suppliers for all build and technical elements delivering the event for VVIP guests in the palace. I worked closely with the palace team to follow the correct protocol and worked alongside the Dubai authorities to deliver the event safely. I oversaw the budget, all accreditation and staffing.

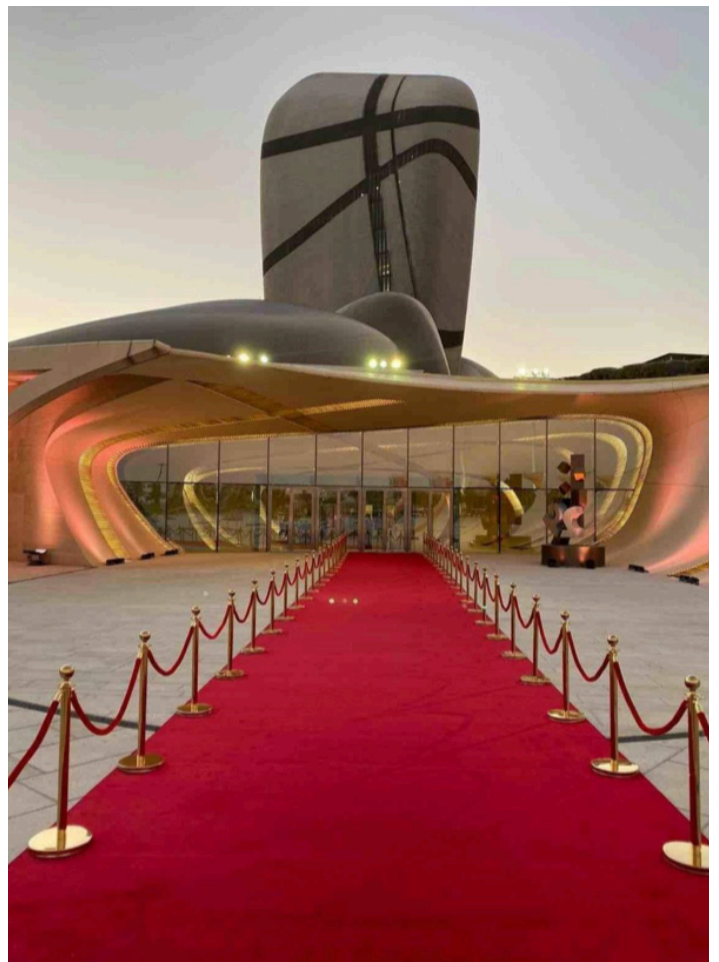

# IPTC Gala Dinner

Ithra, King Abdulaziz Center for World Culture, Aramco, Kingdom of Saudi Arabia

Production Director & Showcaller

I was brought in to lead and provide a team of Technical Manager, Artist Liaison and Stage Manager to deliver this event. I worked as overall Production Director and then show-called the IPTC Gala Dinner for His Royal Highness Abdulaziz Bin Salman Bin Abdulaziz Bin Saud, Minister of Energy and a number of ministers and VVIP Guests. The event was held at Ithra, King Abdulaziz Center for World Culture, Aramco.
